General Information

Overview

This unit builds on your prior learning in the areas of nutrition, biochemistry and physiology and applies this in the context of nutritional assessment. In this unit, you will develop an understanding of nutritional assessment, lifespan nutrition and the relationship between nutrition and disease across specific stages of the lifespan. You will also perform nutritional assessment to evaluate nutritional status of individuals.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from The unit coordinator's self reflection and verbal feedback received from students.

Feedback

The structure of the unit, the assessments and formative quizzes appear to be conducive to learning the associated content and the students enjoyed the residential school activities.

Recommendation

Continue with current structure of the unit and the residential school activities.

Feedback from The unit coordinator's self reflection and verbal feedback received from students.

Feedback

Including additional engaging activities and real-world case studies can assist with providing additional depth and breadth of the concepts.

Recommendation

The inclusion of additional engagement activities and real-world case studies may assist with a deeper understanding of nutrition assessment in practice.
