General Information

Overview

This unit is the Part A of a two-unit series which will provide you the opportunity to consolidate and apply practically all of the knowledge, skills and attitudes developed during your learning journey in the OHS course, especially in relation to human factors, occupational hygiene and risk management. There is a specific emphasis on developing higher order skills and understanding which are representative of the holistic application of core skills that occurs when a professional understands the interaction between core disciplinary domains in solving complex problems. In addition, you will explore professional practice through the lens of futures methods and thinking, applied research methodology and project management. During this unit (Part A) you will also negotiate with an industry sponsor to complete project work during OCHS13021 Future Paradigms in OHS B (Part B) and will prepare appropriate documentation in readiness for approval.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE feedback

Feedback

Please ensure all occupational hygiene instruments are operational prior to the residential school and allow more preparation time for this component.

Recommendation

It is recommended that extra time be taken to ensure that occupational hygiene equipment is operational and that students have more preparation time with this equipment.

Feedback from SUTE feedback

Feedback

It took a long time to get the group occupational hygiene assessment marks back from the marker.

Recommendation

It is recommended that the group occupational hygiene report marks are returned to students in a timelier manner.

Feedback from SUTE feedback

Feedback

There were issues with my team members and team changes at residential school which resulted in my team only have two members for the onsite visits which was unfair.

Recommendation

It is recommended that teams be allocated at residential school when any absences can be accounted for. It is recommended to try to ensure that team member numbers are even across the teams.

Feedback from SUTE feedback

Feedback

The expectations of the residential school could have been clearer and some of the documentation should be given out prior to the residential school.

Recommendation

It is recommended that the residential school requirements are made clearer to the students and that any required documentation is handed out before the residential school where possible.
