General Information

Overview

This unit is the Part A of a two-unit series which will provide you the opportunity to consolidate and apply practically all of the knowledge, skills and attitudes developed during your learning journey in the OHS course, especially in relation to human factors, occupational hygiene and risk management. There is a specific emphasis on developing higher order skills and understanding which are representative of the holistic application of core skills that occurs when a professional understands the interaction between core disciplinary domains in solving complex problems. In addition, you will explore professional practice through the lens of futures methods and thinking, applied research methodology and project management. During this unit (Part A) you will also negotiate with an industry sponsor to complete project work during OCHS13021 Future Paradigms in OHS B (Part B) and will prepare appropriate documentation in readiness for approval.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student Unit Evaluation Data

Feedback

While residential school was considered 'great', students expressed a desire to spend more time at host sites and more time for team projects.

Recommendation

Continue to give students as much time as possible on-site, without crowding out the time for team collaboration opportunities.
