ORAL11003 *Introduction to Oral Disease*

Term 2 - 2024

Profile information current as at 19/05/2024 06:34 am

All details in this unit profile for ORAL11003 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

On completion of this unit you will gain knowledge and understanding of the aetiology and pathogenesis of oral and systemic diseases as a foundation for clinical practice in Years 2 and 3. You will develop an understanding of the impact of systemic disease on the health of the oral cavity, dental management and treatment planning, the importance of patient medical history and the role of the oral health therapist within the dental team. You will learn the principles of intra-oral and extra-oral examination and screening for hard and soft tissue pathologies, as well as examination procedures in the detection of caries, changes in the tooth surface, pulpal and periapical tissues, and periodontal assessment. This knowledge will provide you with the foundations to recognise and describe oral pathological conditions in the clinical situation. You will learn to communicate information regarding oral health in oral and written forms and gain relevant interpersonal and team communication skills, professional attitudes and ethical behaviours.

- Rockhampton

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from By email and in class.

Feedback

Students who regularly sent their answers for practice questions to the unit coordinator for feedback felt that they were well prepared for the written in-class test assessments and their grades improved as a result.

Recommendation

It is recommended that students continue to be encouraged to seek feedback from the teaching team on the practice questions.

Feedback from Email and face to face

Feedback

When working in pairs for the oral presentation assessment, some students felt that they completed the majority of work and this extra workload was detrimental to their other assessments.

Recommendation

It is recommended that the oral presentation group size be reviewed, and the group encouraged to share with the unit coordinator a progress report on the teams' tasks delegation and progress.

Feedback from Face to face

Feedback

Many students rely on the power points, which accompany the lectures, in their revision however some students reported that it was difficult to find information they were looking for as the power points were very long.

Recommendation

It is recommended that the power point slides supporting the lectures be reviewed. Slides will be reorganised and displayed as short topics with clear content outlines, learning outcomes and accompanying review questions to improve the usability for revision.

Feedback from By email and face to face

Feedback

Students liked the Quiz Time sessions in lectures and used the questions to help them prepare for assessments.

Recommendation

It is recommended that the Quiz Time in lectures be retained.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Demonstrate and describe the procedures involved in intra-oral and extra-oral examinations
2. Recognize and describe pathological lesions in hard and soft tissues of the oral cavity
3. Describe common and significant oral and systemic diseases and discuss the impact of these diseases on dental treatment and management by the dental team and oral health therapist
4. Describe the aetiology and pathogenesis of dental caries, periodontal diseases, and pulp and periapical disease
5. Demonstrate appropriate oral and written communication skills, professional attitudes and ethical behaviours as required of an Oral Health Therapist.

The learning outcomes of this unit are part of the overall learning outcomes in the BOralHlth course at CQUniversity. They will form part of the annual report documentation which is submitted to the Australian Dental Council for accreditation.
