General Information

Overview

In this unit you will gain theoretical knowledge in dental materials, restorative procedures and local anaesthetic pharmacology and techniques. You will also translate and integrate this knowledge in a simulated environment while fulfilling workplace health and safety, equipment maintenance and record management requirements. On successful completion of this unit, you will be able to demonstrate practical skills in local anaesthetic techniques and dental restorations in adults of all ages in a simulated environment. You will be able to display appropriate interpersonal / team communication skills, professional attitudes and ethical behaviours. You will be required to attend a two-week compulsory intensive program prior to the commencement of Term 1.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE Comments and In-Person Feedback

Feedback

Students felt the dental materials group assignment was not a beneficial assessment. Feedback has been sought from the cohort to improve this assessment for 2024.

Recommendation

It is recommended that the unit coordinator review the dental materials learning content and group assignment for 2024 to make it a more meaningful learning activity.

Feedback from SUTE Comments and In-Person Feedback

Feedback

The newly developed local anaesthetic tutorials were well received by students, who commented they found them an enjoyable and helpful learning experience.

Recommendation

It is recommended that the local anaesthetic tutorials continue.
