The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

## General Information

### Overview

In this unit you will translate and integrate knowledge and skills learnt in Years 1 and 2 into the clinical setting through work-integrated learning clinical practice. You will study the clinical implications of diagnostic radiography and pharmacology in oral health practice. You will have the opportunity to practise and further develop competency in a range of skills including patient assessment, hygiene, restorative, radiography and other dental procedures. On completion of this unit, you will be able to demonstrate higher level clinical judgment and practical skills in the diagnosis and treatment of dental conditions in patients across the lifespan. You will be able to communicate information regarding oral health in oral and written forms utilising appropriate interpersonal and team communication skills, professional attitudes and ethical behaviours.

### Assessment Overview

#### Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

#### Feedback from Student discussion and SUTE comments.

**Feedback**

Students found the assessment regarding collation of legislation overwhelming.

**Recommendation**

It is recommended that the unit coordinator review the legislation assessment in 2024.

#### Feedback from Student discussion and SUTE comments.

**Feedback**

Students would have liked more time for the In-Class Test.

**Recommendation**

It is recommended that the unit coordinator review the In-Class Test for 2024.

#### Feedback from Self-reflection

**Feedback**

Resources could be set up in clinic for the entire term to encourage practice for the In-Class Test.

**Recommendation**

It is recommended that the unit coordinator set up resources in clinic from the beginning of term to encourage practice for the In-Class Test.

## Unit Learning Outcomes

**On successful completion of this unit, you will be able to:**

1. Discuss the theoretical basis of oral health practice and dental procedures for the diagnosis, prevention and management of oral diseases
2. Integrate patient history taking, dental examination, dental radiography, screening for oral pathologies and risk assessment for patients in a clinical environment, including identification of patients who require referral for care outside of one's scope of practice
3. Diagnose, prevent and manage non-carious tooth structure loss, dental caries (including root caries) and periodontal diseases in a clinical environment
4. Integrate knowledge of basic pharmacokinetics and pharmacotherapy of the major classes of drugs used in dental treatment and drugs taken by children, adolescents and adult patients, relative to oral complications and alterations in dental management
5. Advocate for, and promote, oral health to individuals and groups across diverse community settings in a variety of formats
6. Recognise and act upon the legal, ethical and safeguarding issues involving dental practitioners and patients as defined by the relevant professional and regulatory bodies in Australia and overseas

All unit profiles in the Bachelor of Oral Health are made available to the Australian Dental Council for on-going accreditation purposes.
