Profile information current as at 05/02/2025 06:37 pm

All details in this unit profile for PMSC12005 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

In this unit, you will continue to develop your skills in recognising, diagnosing and managing patients presenting with complex and/or less commonly encountered acute and life-threatening disease processes, throughout the life span. You will integrate your developing knowledge of anatomy and physiology, pathophysiology and pharmacology with patient assessment, diagnostic evaluations and clinical history to formulate a provisional diagnosis. You will use this information to design and implement the most appropriate clinical management in line with contemporary industry guidelines and protocols, and emerging evidence-based practices, displaying safe, ethical and professional practice. Case-based learning combined with high fidelity simulation will contextualise your essential clinical skills, clinical decision making and problem-solving abilities.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE Unit Comments

Feedback

The lectures are difficult to follow, outdated, and presented by inconsistent lecturers.

Recommendation

PMSC12005 content will be reviewed and updated for the 2025 offering, delivered by a consistent lecturer.

Feedback from SUTE Unit Comments

Feedback

Provide more specificity and associated learning resources for the presentation assessment item.

Recommendation

The presentation assessment item will be reviewed to provide greater specificity and expectations, with greater alignment to unit learning outcomes. Supportive learning resources will be provided to assist with the creation of this assessment item.

Feedback from SUTE Unit Comments

Feedback

Provide video demonstrations of clinical simulations to assist with prerequisite learning for residential school.

Recommendation

First-person recordings of clinical simulations will be incorporated within the learning content to assist with prerequisite residential school learnings.

Feedback from SUTE Unit Comments

Feedback

The clinical case review Zoom sessions were enjoyable and supported learning.

Recommendation

Continue weekly Zoom tutorials incorporating case-based learning and the weekly formative assessments.
