General Information

Overview

In this unit you will address the paramedic management of patients with medical and trauma conditions at the critical care level. Upon completion of this unit you will be able to identify the indications, precautions, risks and contraindications of the skills and interventions involved in critical care practice; employ critical thinking and clinical decision making; and demonstrate the skills and interventions required at a critical care level. The unit will include clinical skills laboratory and simulation scenarios designed to enable you to develop the essential communication, assessment, clinical problem-solving, decision making and management skills required at a critical care level.

- Mixed Mode

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE

Feedback

A student stated that they thought that the unit was well structured and complimented by the Residential School

Recommendation

We recommend that we continue to use the current unit structure and include a residential school to provide students with deliberate practice opportunities for clinical skills.

Feedback from Unit Coordinator self-reflection

Feedback

Considerations for recent graduates that enrol in the unit from 2024 onwards.

Recommendation

For students enrolling in the unit from 2024 onwards, we recommend providing additional context on critical care tailored to recent graduates with limited experience in treating high-acuity patients.
