Term 1 - 2027

Profile information current as at 16/09/2026 05:36 pm

All details in this unit profile for PODI13007 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit will encompass a theoretical component, a practical component and a clinical component. The theoretical and practical components will concentrate on the prescription and construction of foot orthoses, where you will produce a range of orthotic devices. The clinical component will focus on further developing your ability to take a holistic approach to assess, diagnose and manage a range of patients, with more of a focus on skin and nail pathologies. You will present clinical cases, explaining the underlying pathophysiology and show your clinical reasoning with respect to assessment, diagnosis and management. As a matter of continuous development, you will be expected to progress your professional podiatric clinical skills.
