PODI13011 *Podiatry Clinical Practice 3*

Term 2 - 2027

Profile information current as at 16/09/2026 05:37 pm

All details in this unit profile for PODI13011 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit encompasses a clinical component and a research component. In the clinical component, you will continue to assess, diagnose, manage and treat a range of patients with different lower limb pathologies; including patients with dermatological, vascular, neurological and nail pathologies. In addition, opportunities will be provided to you to advance your podiatric skills and treat patients with sports injuries and other biomechanical concerns. During clinic, you are required to clearly present patient cases and explain the related underlying pathophysiology to your clinical supervisor; including demonstrating your clinical reasoning skills with respect to assessment, diagnosis and management. This unit is the first of the formal requirements of the research project component of the Honours degree. In the research component you will complete a research proposal and identify a research project through your analysis of the literature that will be carried out in the fourth year of the course.

Details

Career Level: *Undergraduate*

Unit Level: *Level 3*

Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

Pre-requisites: PODI13007 Podiatry Clinical Practice 2, PODI13008 Clinical Biomechanics of the Lower Limb, PODI13009 Neurovascular Medicine in Podiatry Practice, PODI13010 Sports in Podiatry Practice. Co-requisite: PODI13015 Advanced Pharmacology in Podiatry Practice.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 2 - 2027

- Rockhampton

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Informal Student Feedback, Head of Course reflection

Feedback

Clinically-oriented lecture content could be consolidated into a smaller number of lectures and learning activities.

Recommendation

It is recommended that the clinically-oriented lecture activities be consolidated into a smaller number of classes or learning activities to reduce the overall workload associated with this unit.

Feedback from Informal Student Feedback

Feedback

Students enjoyed having a dedicated clinical time focused on musculoskeletal and sporting injuries as well as those focused on paediatrics.

Recommendation

It is recommended that a range of Work-Integrated Learning activities focused on management of musculoskeletal and sporting injuries, and on paediatrics, continue to be scheduled in subsequent years of delivery.

Unit Learning Outcomes

Information for Unit Learning Outcomes has not been released yet.
This information will be available on Monday 17 May 2027

Alignment of Learning Outcomes, Assessment and Graduate Attributes

Information for Alignment of Learning Outcomes, Assessment and Graduate Attributes has not been released yet.
