PODI14010 *High-Risk Foot and Chronic Wound Care*
Term 1 - 2025

Profile information current as at 25/11/2024 07:46 pm

General Information

Overview
This unit focuses on the management of chronic wounds of the foot. You will analyse the factors that enable identification of the high-risk foot. Prevalence of disorders that contribute to disease susceptibility will be considered, along with associated pathophysiological and neurological impacts. Biomechanical factors and client education associated with management and care of infection of the foot at risk for amputation/ulceration will also be considered in the context of prevention and ongoing client health.

Attendance Requirements
All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website
This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.

Previous Student Feedback

Feedback, Recommendations and Responses
Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Staff Feedback

Feedback
Scheduling the Written Assessment and the date earlier in the term may enhance students ability to implement feedback prior to their in-class test.

Recommendation
It is recommended that there is a minimum of two weeks scheduled between the due date of the Written Assessment and the date of the In-Class Test.

Feedback from Staff Feedback

Feedback
Consideration should be made to maximise exposure to active learning opportunities and clinical case studies throughout unit delivery.

Recommendation
It is recommended that opportunities for active learning and cased-based learning scenarios be considered in the unit design.
