PODI14011 Complex Cases in Podiatry Practice

Term 2 - 2024

Profile information current as at 19/05/2024 04:51 am

All details in this unit profile for PODI14011 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

In this unit students will explore a broad range of complex disorders and clinical scenarios relevant to podiatry practice. Students will be required to apply high-level clinical reasoning to arrive at appropriate diagnoses relating to complex clinical scenarios and to develop, justify, and evaluate appropriate assessment and management strategies. Students will apply principles of interdisciplinary practice and will further refine their skills in clinical reasoning and reflective practice.

Assessment Overview

1. **Objective Structured Clinical Examinations (OSCEs)**

Weighting: 50%

2. **In-class Test(s)**

Weighting: 50%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Unit Coordinator reflection

Feedback

Consolidation of unit lectures for improved final assessment preparation.

Recommendation

It is recommended that the unit schedules be adjusted. This consolidated block should be positioned earlier in the term, allowing students to dedicate ample time to prepare for their final assessments.

Feedback from Unit Coordinator reflection

Feedback

Students benefited from scheduled review sessions to discuss and clarify preparation for assessment tasks.

Recommendation

It is recommended to schedule assessment review sessions before the assessment submission due date, aiming to offer timely feedback and guidance to students.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Use complex case studies to explain the processes required to reach complete diagnosis and safe management of the patient in podiatric practice
2. Prepare and evaluate goal-oriented evidence based management strategies recognising holistic and interdisciplinary management
3. Integrate evidence based practice into the structure of complex case management
4. Apply clinical reasoning, reflective practice, and clinical judgement in the management of the patient in podiatric practice.
