Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE

Feedback

Some students expressed concerns that attendance would contribute to grades, particularly those enrolled in distance education who valued flexibility.

Recommendation

The Unit Coordinator should review assessment design to ensure flexibility for distance learners and explore alternatives to attendance-based grading.

Feedback from SUTE

Feedback

Group assignments were challenging and perceived as unfair in a distance education format.

Recommendation

The Unit Coordinator should evaluate group assessment requirements for online cohorts and provide enhanced support where group work remains essential.

Feedback from SUTE

Feedback

Students found it difficult to understand many new terms and concepts introduced early in the unit and requested more real-world examples to clarify abstract ideas.

Recommendation

The Unit Coordinator should collaborate with teaching staff to integrate relevant project-based examples and case studies into learning materials.

Feedback from SUTE

Feedback

Students requested that weekly learning materials, including videos, readings, and resources, be released at least one week in advance to allow for better preparation and deeper engagement during sessions.

Recommendation

It is recommended that the Unit Coordinator work with teaching teams to release materials earlier, wherever feasible, to support student preparation and engagement.
