General Information

Overview

This unit offers you the opportunity to explore project scope management and introduces you to the processes required to ensure the successful completion of a project. You will learn scope verification and validation techniques. The unit also offers you the opportunity to learn about the tools and methods to keep projects under control and the methods to undertake changes within a project context. You will also learn about project configuration management, as it is a necessary mechanism to ensure that such changes are handled in a managed and controlled way in order to keep the project on track.
