General Information

Overview

An internship provides you with real project management experience while working with an employer (work-integrated learning). You will integrate knowledge and skills gained while studying your discipline units, with their application in the workplace to further develop your project management competencies. You will document and reflect on your learning experiences and on the employer's contribution to your professional development.

Pre-requisites or Co-requisites

Pre-requisites: You must have completed all units in your course except this one and passed all those units on the first attempt. If you do not pass all prior units on the first attempt, you will not be eligible to enrol in this unit and therefore you must either enrol in 'Research Stream' units or 'Practicum Stream' units. **Anti-requisites:** If you have completed any units from the 'Research Stream' or 'Practicum Stream' you cannot enrol in this unit.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student feedback and UC observation

Feedback

Learning materials and assessments were not fully aligned with the needs of the cohort.

Recommendation

The unit is to be updated to be relevant to both Master of Project Management and Master of Construction Management students. The revised Learning Outcomes will then inform revised assessments and curriculum.

Feedback from Student feedback

Feedback

The lecturer provided valuable learning, and the WIL Team provided great support.

Recommendation

Continue to improve the unit to provide a valuable real-life work experience and instill employability skills in graduates.

Feedback from Student feedback and UC observation

Feedback

Site visits proved immensely valuable, however due to logistics were held late in the internship, and some had to be held online.

Recommendation

Start planning site visits as early as possible in the term and endeavor to conduct as many as possible in person.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Apply project management knowledge and skills in the workplace
2. Communicate an understanding of the relevant legal and ethical issues related to the project management profession
3. Work collaboratively in teams in the context of a workplace, either as member of a project team, a project manager, or a shadow to a project manager
4. Critically reflect on strengths and weaknesses in knowledge and skills related both to project management and workplace experience.
