General Information

Overview

This unit is an introduction to professional property valuation. The unit examines property markets, market value, factors influencing market value, the nature and role of various stakeholders and the valuation process applied to freehold property interests. Practical aspects of property valuation are introduced including data collection, valuation report writing, the practical implications of professional ethics and codes of professional practice in property industry with specific focus on simple residential property.

2. **Take Home Exam**

Weighting: 50%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE

Feedback

Evaluation categories scoring less than 80% are clear unit requirements, useful knowledge/skills, and unit relevant to degree.

Recommendation

Much of this may relate to the subjective nature of property valuation. That said, the coordinator should work on making assessment expectations even clearer upfront and explicitly provide further scaffolding for non-property students.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Describe and evaluate the theory and principles of property valuation and property market economics.
2. Communicate and interact productively with various stakeholders in the property industry using various media channels.
3. Apply and review ethical arguments and cultural implications related to property economics and valuation processes.
4. Conduct a valuation of less complex property types by selecting and applying appropriate methods and preparing a professional property valuation report.

This unit fulfils part of the property valuation content within the "Valuation" field of the Australian Property Institute's accreditation guidelines. After successful completion of this unit students will be able to conduct valuations of residential and other less complex real property types at a professional standard.

Assessment Tasks

1 Residential valuation

Assessment Type

Written Assessment

Task Description

Execute a real property valuation of a free standing single dwelling (e.g. a house on a block of land) plus additional practical and theoretical elements pertinent to the valuation. In this assessment you will select a property that you have access to and value it using the methods learned in class to produce an industry standard professional valuation report. Complete details to be found on the Moodle site.

You may be eligible for a re-attempt. A re-attempt is where you are given a second opportunity to demonstrate your achievement of one or more of the unit's learning outcomes before you can progress to new learning or participate in subsequent learning activities. You may be given the opportunity to re-attempt an assessment but will only achieve a

mark no greater than the minimum for a pass standard for the assessment. You must:

- have shown a reasonable attempt to complete the initial assessment task
- be granted a re-attempt by your Unit Coordinator
- note that only one opportunity to do a re-attempt will be given, and
- make changes to the nominated assessment task which you have failed and resubmit the revised work for marking within seven (7) consecutive days, no assessment extensions will be approved.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
