General Information

Overview

This unit will provide you with an introduction to the assessment and treatment of musculoskeletal conditions in the lower limb, pelvis and lumbar spine for clients across the lifespan. This unit will focus on the development of an evidence based, problem solving approach to the assessment and treatment of common clinical presentations in musculoskeletal practice. The completion of this unit will enable you to apply effective clinical reasoning that underpins your selection and performance of evidence-based and client-centred physiotherapeutic assessment and treatment techniques.
