Term 2 - 2027

Profile information current as at 03/09/2026 12:27 am

All details in this unit profile for PSIO12002 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

You will develop knowledge and clinical skills relating to the comprehensive management of patients with acute and chronic cardiac and respiratory conditions. You will apply the principles of evidence-based approaches to cardiorespiratory physiotherapy management of patients in the context of biological, social and psychological factors. You will relate the role of the cardiorespiratory physiotherapist working in a diverse range of hospital and community care facilities to that of the inter-professional team, family members and carers of patients.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE and verbal feedback from students

Feedback

Students requested practice test questions for Mid and End-Term tests to assist in preparing for assessments.

Recommendation

It is recommended that practice test questions be developed and made available to students.

Feedback from Verbal feedback from students

Feedback

Students felt that the number of clinical reasoning case studies was too high in some practical sessions.

Recommendation

It is recommended that the volume of clinical reasoning case studies be reviewed to allow for more time in class to talk through the cases and practice clinical skills.
