General Information

Overview

In this unit you will advance your knowledge and skills in the assessment and management of complex musculoskeletal conditions, with a focus on developing and refining your clinical reasoning and manual therapy skills. The unit will foster an evidence-based and client-centred approach to physiotherapy management of acute sporting injuries, orthopaedic surgery, complex spinal and peripheral conditions, chronic disease and persisting pain, across the lifespan. Complex clinical presentations will be explored in the context of biological, social and psychological factors that influence client recovery and participation.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student Unit Teaching Evaluation

Feedback

Students thoroughly enjoyed the guest lecturer sessions.

Recommendation

It is recommended that these sessions be continued and possibly expanded to include new teaching members from the local physiotherapy community.

Feedback from Verbal Feedback

Feedback

Students were appreciative of the inclusion of weekly formative quizzes on Moodle.

Recommendation

It is recommended that these quizzes be included in future offerings of the unit.
