General Information

Overview

In this unit you will advance your knowledge and skills in the assessment and management of complex musculoskeletal conditions, with a focus on developing and refining your clinical reasoning and manual therapy skills. The unit will foster an evidence-based and client-centred approach to physiotherapy management of acute sporting injuries, orthopaedic surgery, complex spinal and peripheral conditions, chronic disease and persisting pain, across the lifespan. Complex clinical presentations will be explored in the context of biological, social and psychological factors that influence client recovery and participation.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student Unit Evaluation of Teaching (SUTE)

Feedback

Some students felt the case study session became a bit repetitive and they lost interest.

Recommendation

It is recommended that these sessions be reviewed and revised to increase the practical requirements (e.g., add extra activities) and reduce the downtime spent reading case material.

Feedback from Student Unit Evaluation of Teaching (SUTE)

Feedback

Students valued the highly practical and hands-on focused sessions and the expertise of the tutors.

Recommendation

It is recommended that all practical sessions include several practical and hands-on based activities to enhance student engagement and learning.
