All details in this unit profile for PSYC13015 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

## General Information

### Overview

This unit is designed to equip you with the analytic skills necessary to carry out advanced applied research. You will develop a toolbox of practical skills that will allow you to undertake qualitative and quantitative research as part of your undergraduate and/or professional career/s in psychology, research, business, government, community development, education, and beyond. The unit builds on earlier research methods units in psychology (PSYC11012 and PSYC12048). You will be introduced to advanced statistical techniques, as well as how to analyse and interpret quantitative data using industry-standard statistical software packages. You will also continue to develop your skills in qualitative research methods and build your abilities in research interviewing, thematic analysis and reporting of qualitative data, how to build rapport and trust with participants, and how to be self-aware and reflexive when conducting qualitative research.

## Previous Student Feedback

### Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Self-reflection, staff feedback, informal student discussion.

**Feedback**

Too many quantitative portfolio assessments close together and in the second half of term.

**Recommendation**

Aggregate the three statistical portfolio tasks into two, retaining a similar depth and breadth of content.

Feedback from Formal student feedback (SUTE), self-reflection, staff feedback.

**Feedback**

Provide shorter "step-by-step" videos to help students perform basic tasks in SPSS that are needed to engage in data analysis.

**Recommendation**

Increased number of short and basic "step-by-step" video guides will be produced to support the live and interactive SPSS workshops.

Feedback from Formal student feedback (SUTE), staff feedback.

**Feedback**

Comprehensive feedback was provided on all assessment tasks, allowing students to improve on the next assignment.

**Recommendation**

Continue to provide detailed written feedback for quantitative and qualitative assessment tasks.

Feedback from Formal student feedback (SUTE), staff feedback, self-reflection.

**Feedback**

One quantitative and one qualitative assessment task fell on the same due date.

**Recommendation**

Ensure there is no overlap with assessment due dates in 2024.
