Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student comments in class and personal reflection.

Feedback

Students found doing a violence risk assessment (group project) on a person from a real-world case thought-provoking and enhanced their understanding of the importance of accurate risk assessments.

Recommendation

Continue to utilise a real-world case for the risk assessment group project.

Feedback from Student unit teaching evaluations.

Feedback

Some students found the group project challenging due to the large number of students in the group (six). They suggested that it would be easier for group members to navigate timetables if the number was limited to four.

Recommendation

Reduce the number of students assigned to each group.
