PSYC14051 *Psychology Research Project A*

Term 2 - 2025

Profile information current as at 22/11/2024 10:24 pm

All details in this unit profile for PSYC14051 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

Psychology Research Project A (PSYC14051) is the first of two units which will introduce you to the process of undertaking research in the discipline of psychology. Over the two units, you will independently undertake a scholarly investigation, under the supervision of a qualified supervisor within the psychology discipline. The purpose of the Psychology Research Project A unit is to provide you with the experience of proposing and planning an independent research project. The research question examined will be developed in consultation with your supervisor and will have either theoretical or applied significance in the psychology discipline. In Psychology Research Project A you will complete a research project proposal and an ethics application for that proposed project. Successful completion of this unit requires that Psychology Research Project A (PSYC14051) and Psychology Research Project B (PSYC14052) are undertaken in two consecutive University terms (e.g., Term 1 and Term 2, or Term 2 and Term 3).
