General Information

Overview

Psychology Research Project B is the second of two units designed to introduce you to the process of undertaking research in the Psychology discipline. Over the two units, you will independently undertake a scholarly investigation, under the supervision of a qualified supervisor within the Psychology discipline. The purpose of the Research Project B unit is to provide you the opportunity to conduct the project proposed in Psychology Research Project A (PSYC14051). Throughout this unit you will conduct the investigation proposed in Term 1 and develop an independent scholarly report based on this investigation. Your final thesis submission will comprise an empirical journal style paper report based on the findings of your specific research project. Successful completion of this unit requires that Psychology Research Project A and Psychology Research Project B are undertaken in two consecutive University terms (e.g. Term 1 and Term 2, or Term 2 and Term 3).
