General Information

Overview

In this unit, you will examine interconnected factors and complex systems that impact wellbeing and resilience at an individual and societal level. At the individual level, you will examine the interplay between mental processes, emotions, and physiology, and assess how to positively influence these areas. You will also evaluate the importance of factors such as sleep, nutrition and diet, exercise, social support, fun, play, and creativity. At a societal level, you will evaluate the impact on wellbeing and resilience of factors such as education, health systems, societal norms and values, and the impact of built and natural environments. Within this interconnected factors framework, you will draw on evidence-based research, tools, approaches, and models, to promote wellbeing and resilience interventions.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student feedback (evaluations).

Feedback

Students found the assessment instructions and marking rubrics were clear and transparent.

Recommendation

Maintain the clarity of assessment instructions and rubrics, with regular updating for continual improvements.

Feedback from Student feedback (evaluations).

Feedback

Some students felt that Assessment 1 was too big, and that the tasks they had to complete were somewhat repetitive.

Recommendation

Review Assessment 1 to see where the number of tasks and repetition of tasks can be reduced.
