PSYC20061 *Research Evaluation for Psychology Practice*
Term 2 - 2024

All details in this unit profile for PSYC20061 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student).The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview
Evidence-based practice is an integral component of practicing as a psychologist, and aligns with the scientist-practitioner model. It is essential that you establish and evaluate your professional practice work based on scientific research. This unit will equip you with knowledge and skills related to the conduct of research evaluation in a professional practice context.

- Online

Attendance Requirements
All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website
This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.

Class and Assessment Overview

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the University's Grades and Results Policy for more details of interim results and final grades.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE Data Unit Coordinator reflection Consultations with MPP and MCP teaching teams

Feedback
Add completion of the proposal back into this unit, rather than in the Term 1 unit.

Recommendation
Add the report proposal as an early hurdle assessment for this unit.

Feedback from SUTE Data Individual student emails

Feedback
The timing of the final assessment piece coincides with final placement reviews and other assessment due dates.

Recommendation
Review due date timing for the final report.

Feedback from SUTE Data Feedback from students in class Unit coordinator reflections

Feedback
Students appeared overwhelmed by the amount of information presented early in the term, and because lectures and discussions were delivered live, there was not an opportunity to review the information.

Recommendation
Review weekly content and provide short video recordings for later review.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Communicate research in a manner that is professional, ethical, and culturally appropriate, and critically considers prior literature relevant to the professional practice of psychology.
2. Plan and produce a substantive individual research evaluation report relevant to the practice of psychology.

Learning outcomes are related to core competencies specified by the Psychology Board of Australia (PsyBA), program of study criteria as stated by the Australian Psychology Accreditation Council (APAC), and specifications for study at level 9 as indicated by the Australian Qualifications Framework (AQF).
This unit addresses Professional Competencies as specified by the Australian Psychology Accrediation Council (APAC). This unit specifically aligns to the following APAC competencies:
3.2 Apply evidence-based and scientific methods to professional practice across the lifespan in empirically valid and culturally responsive ways.
3.3 Employ professional communication skills, in a culturally responsive manner, with a range of socially and culturally diverse clients.
3.8 Interpret and communicate findings in oral and written formats, including formal psychological reports, using culturally appropriate language.
3.10 Demonstrate respect for the skills and contribution of other professionals.
3.15 Evaluate the effectiveness of their professional practice, identifying areas for improvement and implementing changes where needed.
3.16 Critically evaluate contemporary scientific literature to inform practice.
3.17 Investigate a substantive individual research question relevant to the discipline of psychology.

Learning Outcomes Assessed

- Communicate research in a manner that is professional, ethical, and culturally appropriate, and critically considers prior literature relevant to the professional practice of psychology.
- Plan and produce a substantive individual research evaluation report relevant to the practice of psychology.

2 Progress Report

Assessment Type
Self assessment

Task Description
Students will be required to provide a self-assessment of their progress on their evaluation reports.
This should be used as an opportunity to flag any concerns regarding progress with the Unit Coordinator.
The link to the progress report template will be available on Moodle. The submission portal will be open during Week 7 and Week 8.

Assessment Due Date
Week 8 Monday (2 Sept 2024) 5:00 pm AEST

Please submit via the progress report link on Moodle.

Return Date to Students

As this is a self-assessment task, formal feedback will not be provided. The Unit Coordinator will follow up individually with each student as needed.

Weighting
Pass/Fail

Assessment Criteria
A detailed rubric will be available on Moodle.
Students will be assessed on the following:
Process: 75 marks
Title
Identifies the type of report and key variables.
Title is appropriate and representative of topic area
Abstract
Provides a succinct summary of the evaluations including, as applicable: background; objectives; data sources; study eligibility criteria, participants/populations, interventions/areas of professional practice; study appraisal and synthesis methods; results; limitations; conclusions and implications of key findings.
Introduction
Provides a clear overview of relevant and appropriate literature and research evidence.
Describes the rationale for the review in the context of what is already known about the topic area.
Provides an explicit statement of questions being addressed with reference to relevant details such as participants/population, intervention/area of professional practice, comparisons, outcomes, study design/approach.
Methods
Provides a clear statement of the evaluation methodology including method of data/study selection/collection/extraction and any processes for obtaining and confirming data from investigators/repositories.
All variables and study/report characteristics, including any assumptions and simplifications made are clearly defined and outlined.
Describes all data/information sources (e.g., type of data utilised, databases with dates of coverage, contact with study authors to identify additional studies) in detail.
Appropriate detail is included for replication, including detailed search strategy (if appropriate).
Appropriate ethical considerations are identified and discussed.
Results

Results are presented clearly and accurately and include all relevant detail.
The analyses/methods chosen link logically and align directly the research question/s being examined.
Discussion
Begins with a summary of the main findings with review of the questions being evaluated, and provides an appropriate interpretation of the results in the context of other evidence.
Recommendations are logical and appropriate given the findings and context; consider their relevance to key groups (e.g., healthcare providers, users/populations, policy makers), .
Discuss limitations of study and implications for future professional practice and/or research.

Writing: 25 marks
Report is logical and coherent throughout, from describing the topic area, framing the question/s, providing a method of analysis and evaluation, and then interpreting findings and making recommendations.
Adherence to APA or specified journal format

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the **Student Academic Integrity Policy and Procedure**. This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?
A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?
A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?
For academic advice and guidance, the Academic Learning Centre (ALC) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest
If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help
If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work
Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
