General Information

Overview

Clinical Practice 1 is the first in a series of clinical practice units. This unit is designed to provide you with advanced practice skills required for the professional competencies in clinical psychology specified by the Australian Psychology Accreditation Council (APAC) and to prepare you for the Registrar Program to gain an Area of Practice Endorsement in clinical psychology with the Psychology Board of Australia. By the completion of Clinical Practice 1, it is expected that you will achieve competencies including the application of knowledge to practice; awareness of ethical decision making; competency in cognitive-learning assessments and evidence-based interventions with a narrow range of clients at low severity levels; respectful and timely communication; and capacity to critically self-reflect on your practice.

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE feedback

Feedback

Some students requested increased video demonstrations for administration of psychological assessments.

Recommendation

Integrate more examples of assessment administration skills in real time/video.

Feedback from SUTE feedback

Feedback

Some students requested increased support for interpretation of psychological assessments, and although the manuals are useful, there is some ambiguity and reliance on clinical judgement.

Recommendation

Allow more time to discuss assessment findings and also offer additional support in the clinic for 'drop in' administrative scoring/interpretation sessions.

Feedback from SUTE feedback

Feedback

Some students requested increased supervision for the administration of psychological assessments and more opportunities to receive feedback on their in-session skills.

Recommendation

Consider supervising more subtests from psychological assessments and staggered clinic appointment times to allow for increased supervision in the clinic and increased opportunities for feedback regarding practice.

Feedback from SUTE feedback

Feedback

Some students requested a greater integration between this unit and other units within the course so that psychological assessments are taught prior to their administration in the clinic.

Recommendation

Continue with regular MCP and MPP course-level meetings to review timing of assessment delivery and streamline co-teaching across course units.
