PSYC22006 *Clinical Practice 4*

Term 2 - 2027

Profile information current as at 04/09/2026 05:52 pm

All details in this unit profile for PSYC22006 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

Clinical Practice 4 builds on Clinical Practice 3 (PSYC22005) to provide you with advanced practice skills required for the professional competencies in clinical psychology specified by the Australian Psychology Accreditation Council (APAC) and to prepare you for the Registrar Program to gain an Area of Practice Endorsement in Clinical Psychology with the Psychology Board of Australia. This includes the culturally-sensitive, evidence-based practice of clinical psychology, both autonomously and as a member of a multidisciplinary team. During your clinical practicum in a community-based setting, you will continue to develop your knowledge and skills to formulate and share case conceptualisations and intervention plans.

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Direct student feedback

Feedback

Students indicated that the Log of Hours template presented barriers to accurate record keeping for placement activities, resulting in additional workload.

Recommendation

The log of hours template to be updated to streamline processes, increase recording accuracy and reduce student workload for future cohorts. Including completion instructions for the log of hours with an exemplar record would support students in completing their logbooks accurately.

Feedback from In-class feedback

Feedback

Students indicated that they found the discussion in group supervision extended their understanding of how to apply evidence-based knowledge to practice.

Recommendation

Continue to have discussions about the application of evidence-based knowledge to practice in group supervision.
