General Information

Overview

In this unit you will learn how the fundamental principles and theories of positive psychology can be applied to the design, development, and measurement of evidence-based interventions for enhancing the wellbeing and resilience of individuals and groups across a range of settings such as education, health, and organisations. The exploration of practical applications will include designing and implementing a positive psychology intervention, examining determinants of change, and developing ways to measure and monitor efficacy and change processes.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE responses.

Feedback

Some students felt the delivery style could be more engaging and that there was limited opportunity to see how positive psychology interventions apply in different real-world contexts.

Recommendation

Learning materials will be updated to incorporate more interactive elements, such as case studies and consideration given to the addition of more guest speakers from varied professional fields, to broaden perspectives and increase engagement.

Feedback from SUTE responses.

Feedback

Feedback indicated that weekly content did not always align clearly with assessment tasks, and the assessment sequencing created challenges for workload management.

Recommendation

The unit structure and assessment timing will be reviewed to create a clearer alignment between weekly topics and assessments. The length of the written assessment will be adjusted to provide a more balanced workload.

Feedback from SUTE responses.

Feedback

Students noted that the group assignment was intensive and that the assessment instructions were overly complex.

Recommendation

The unit coordinator will investigate strategies for simplifying and streamlining the assessments without compromising the achievement of learning outcomes.
