General Information

Overview

This unit provides you with the opportunity to consolidate and apply all of the knowledge, skills and attitudes developed during your learning journey in the course, particularly with regard to human factors, occupational health and hygiene, safety science, and risk management. The unit also develops theoretical and methodological knowledge to allow you to evaluate the evidence that will inform your professional practice. There is a specific emphasis on developing higher order skills and understanding which are representative of the holistic application of core skills that occurs when a professional understands the interaction between disciplinary domains in solving complex problems.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE Unit Comments Report

Feedback

Clearer instructions in regards to the use of templates to complete assessment tasks has been requested (i.e. accompanying instructions as to their use/completion).

Recommendation

The provision of templates will be accompanied by instructions as to their completion in the next term this unit is offered.

Feedback from SUTE Unit Comments Report

Feedback

The volume of supporting resources and readings provided in revision materials for the Occupational Hygiene and Human Factors topics for use in the assessment tasks has been noted as excessive and unnecessary.

Recommendation

Additional resources that are not essential to the completion of specific assessment tasks will be identified as optional additional resource/readings, or will be removed from Moodle.
