

SOWK12009 Casework and Case Management

Term 1 - 2024

Profile information current as at 19/05/2024 07:35 am

All details in this unit profile for SOWK12009 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit provides students with an introduction to case management, how case work integrates within the framework of case management, and the structured steps in the case management process across a range of practice fields. The history, the policy and political framework and the implementation of case management across a range of practice fields will be critically analysed. Students will explore the lived experience of service users and the co-design of care plans using the case management process and demonstrate social work professional skills to achieve this at residential school. Students will develop knowledge and skills in undertaking holistic social assessment, developing care plans, coordinating services for service users and family member and monitoring and evaluating care plans.

Offerings For Term 1 - 2024

- Mixed Mode

Attendance Requirements

All on-campus students are expected to attend scheduled classes - in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Residential Schools

This unit has a Compulsory Residential School for distance mode students and the details are:

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy

- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student evaluation

Feedback

I found it a very engaging unit - directly linked to what we will be doing in practice

Recommendation

Continue to maintain focus on direct practice in this unit.

Feedback from Student evaluation

Feedback

I would have like to see additional suggested reading material or video links related to case management phases from weeks 6 - to 12.

Recommendation

The prescribed resources for the second part of the term followed those from previous years. Additional specialist resources will supplement the existing materials.

Feedback from Student evaluation

Feedback

Divide into weekly sections rather than modules. It was confusing and difficult to find information.

Recommendation

The structure of the unit and the Moodle site followed the one established in the previous years. The e-reading list was organised around unit topics rather than what to read at a particular point during the term. Consideration will be given how the unit can be further structured to further support student learning.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Conceptually map the major features, principles, structures, processes and roles of case management practice and systems relevant to diverse contexts
2. Critically analyse the functions of case management in service delivery and its relevance for social work and human services policy and practice
3. Demonstrate case management processes and skills undertaking an assessment with a service user.
4. Apply appropriate cross cultural awareness skills and knowledge to case work and case management contexts with indigenous peoples
5. Generate an evidence-informed intervention plan for complex and high need service users.

This unit addresses the AASW Practice Standards Objectives 3, 4, 5, 6 & 7.

Assessment Tasks

1 (PART A) Pre-Planning Assessment: 1000 WORDS (PART B) Written reflective assessment: 500 words

Assessment Type

Written Assessment

Task Description

Aim

This aim of this assessment is to familiarise yourself with the case management process of pre-planning and of developing reflective practice skills in social work practice.

PART A INSTRUCTIONS: Pre-Planning Assessment

- This is an individual assessment you will undertake in preparation for meeting the service user at the Intensive Teaching block.
- You are required to refer to the case study for this assessment which can be found in the Assessment Block on Moodle. You will also use this case study for all your assessments and role play at the Teaching Intensive.
- You will need to obtain the Bio-Psychosocial-Political Assessment in the Assessment Block on Moodle and use the assessment format for the pre-planning, completing the relevant areas of the assessment (listed below), and identify any information that is unfamiliar to you and needs further research before meeting the service user at the Teaching Intensive.
- Identify the presenting issues outlined in the case study (please note that this is not necessarily what the client will think are their main issues of concern when you meet with them).
- Research anything that you are unfamiliar with, or you think would be helpful to know further, before meeting the service user, health diagnosis, legislation, social issues.
- Identify what the biological issues are such as mental health, physical health, disabilities.
- Identify what the social issues are such as housing issues, finances, social and community exclusion or challenges, family issues, work stressors, cultural barriers, stressors, race.
- Identify what the psychological issues are such as issues such as low self-esteem, negative self-belief, trauma.
- Identify whether there are any political and social injustices that are impacting on the lived experience of the person, such as discrimination, race, poverty, access to benefits, housing instability.
- Identify whether there are any protective factors that reduce the risk for the person, such as supportive family, job, religious faith, community participation.
- Identify what the strengths of the individual are and how the person can be supported to develop their strengths further.

PART B: Written Reflective Assessment 500 words

This part of the assessment requires that you engage in reflective social work practice and undertake an analysis of your assumptions and beliefs about the case study and how this influences your practice.

- Identify your own assumptions, values, and past experiences and how these influenced your attitude in pre-assessing the client.
- Identify new insights about how dominant structures and systems create difficulties for service users, such as barriers, create stigma and social exclusion, and reinforce poverty.

Requirements

- Use a conventional and legible size 12 font, such as Times New Roman or Arial, with 2.0 line spacing and 2.54 cm page margins (standard pre-set margin in Microsoft Word).
- Include page numbers on the top right side of each page in a header.
- You are to write a report format for PART A which can be located on Moodle.
- Use formal academic language.
- Use the seventh edition American Psychological Association (APA) referencing style. The CQUniversity Academic

Learning Centre has an online APA Referencing Style Guide.

Resources

- You will refer to the case study. This assessment does not require academic resources, but you are expected to develop an understanding of the processes and stages of case management from your textbook and unit content to be able to complete the requirements.
- Submit a draft before the due date to review your Turnitin Similarity Score before making a final submission. Instructions are available here.

Generative AI

Generative artificial intelligence (Gen-AI) includes a range of computer programs that use data sets and computer-generated information to create new content. For this assessment you may use Gen-AI to help you to understand the question, explain research concepts and check references are in the correct format. If you use Gen-AI, you should include a statement that declares that you have used Gen-AI and how you have used Gen-AI.

You should not use Gen-AI in the creation or critical analysis of the content or to write or rewrite any part of your assessment.

You should be aware that Gen-AI output can be incorrect and can include fictitious references and sources.

2 AUDIO-VISUAL DEMONSTRATION OF A CASE WORK SESSIONS: 15 MINUTES

Assessment Type

Practical Assessment

Task Description

Aim:

- To develop the ability to demonstrate the case management process which includes:
- Initiation of the case work session
- Assess the service users needs using the Biopsychosocial-political assessment.
- Develop the service users goals collaboratively and identify the intervention plan to achieve these goals, with time lines and a review date specified.
- Summarise and close the case management session.

Instructions:

You are required to record a 15-minute simulated role playing using the case study you used for Assessment 1 , demonstrating the different stages of the case work process.

Most of the learning for this assessment will be undertake at the 5-day Teaching Intensive.

You will be required to demonstrate the following skills in the audio-visual recording:

- Knowledge regarding use of appropriate space.
- Demonstration of the initial stage of the case management process with the service user. Makes the service user feel comfortable, introduces themselves, their case management role, the limits of confidentiality, and opens the assessment stage sensitivity and with curiosity
- Demonstrated ability to develop a positive and productive connection with the service user, which is empathetic, supportive, attentive, authentic (congruent), and non-judgemental (unconditional positive regard).
- Demonstrates an excellent ability to ask meaningful questions that are relevant to the needs and interests of the service user with curiosity and sensitivity, using the bio-psychosocial-political assessment framework to inform their questions.
- Demonstrated ability to utilise active listening skills (attending and following, reflection-content, feeling, reflection of meaning summative reflection) as part of the assessment stage, to convey that they have heard and understood the service user.
- Demonstrated ability to identify the challenges and areas of support and the service user's strengths, with a focus on self-determination.
- Demonstrated ability to summarise assessment and needs of service user, considering appropriate timing, and co-develop a care plan with goals and an intervention plan.

- Ability to close case management session with service user.

In the submission area on Moodle, upload your AV PowerPoint presentation recording by choosing the Echo360 tab and a copy of the PowerPoint without the video embedded. Students are advised to upload their AV recording via Echo 360 to avoid problems associated with media file size and access. The unit Moodle Assessment tile includes instructions on submitting video assessments using Echo. Alternatively, you can submit a coversheet with a link to your OneDrive file along with your PPT. All students have access to OneDrive through CQUniversity and should save their AV in One Drive. If you choose this option, please ensure this link is set to: 'accessible to anyone with the link'.

Further instructions will be explained in an online Zoom session. If, after viewing the resources, you are unsure how to proceed, seek support from TaSAC.

Documentation

A consent form must be signed by all participants (including the person who role plays the service user and uploaded to Moodle. An Assessment Cover Sheet must also be completed and attached to the audiovisual recording. Assessment Cover Sheets must include the submission link if uploaded to Moodle.

Please note: An additional copy of the audio-visual recording must be retained by the student.

Assessment Type

Report

Task Description

Aim

The aim of this assessment is to complete the biopsychosocial-political assessment and the formulation, clearly linking the issues identified in the assessment to the development of the goals and intervention plan. In addition, you will reflect on the entire case management process throughout the unit, and identify the strengths and challenges and new insights that you have developed about your personal assumptions, dominant structures and systems, and what you need to develop further.

Instructions:

PART A: Biopsychosocial-Political Assessment 1000 words (10 marks marks)

In this task you are required to complete the biopsychosocial-political assessment that you started in Assessment 1. You are required to complete all of the assessment domains with the additional information you obtained from the Teaching Intensive block.

PART B: Assessment Formulation 500 words (10 marks)

In Part B you are to present a final summary (formulation) of your assessment ensuring you consider the factors outlined in the bio-psycho-social-political assessment. You will obtain this information at the 5-day Teaching Intensive in your role plays to be able to complete this part of the case management process. The formulation is a summary of the key issues from your assessment that have been identified as priorities for support.

PART C: Client Goals and Intervention Plan (Up to 500 words) (10 marks)

Please refer to the care plan format on Moodle. The formulation informs the development of the goals and intervention plan (the services and actions needed to achieve the goals). You will identify immediate, medium- and long-term goals and the interventions to achieve these goals, with a review date of 3 months.

PART D: Written Reflective Assessment (500 words) (10 marks)

You are required to write a 500-word reflection for the entire case work process that you have undertaken during term. You are to consider what you did well, what you found challenging, what you learnt about your own personal assumptions, what you learnt about dominant systems and structures that further oppress or maintains oppression of service users, and what skills, knowledge, and values you need to develop further.

Requirements

- Use a conventional and legible size 12 font, such as Times New Roman or Arial, with 2.0 line spacing and 2.54 cm page margins (standard pre-set margin in Microsoft Word).
- Include page numbers on the top right side of each page in a header.
- You are to write a report format for PART A which can be located on Moodle.
- Use formal academic language.
- Use the seventh edition American Psychological Association (APA) referencing style. The CQUniversity Academic

Learning Centre has an online APA Referencing Style Guide.

Resources

- You will refer to the case study and the information you obtained about the case from the intensive teaching block. This assessment does not require academic resources, but you are expected to develop an understanding of the processes and stages of case management from your textbook and unit content to be able to complete the requirements. You may also refer to academic content about social work critical reflection and reflective writing.
- Submit a draft before the due date to review your Turnitin Similarity Score before making a final submission. Instructions are available here.

Generative AI

- Generative artificial intelligence (Gen-AI) includes a range of computer programs that use data sets and computer-generated information to create new content. For this assessment you may use Gen-AI to help you to understand the question, explain research concepts and check references are in the correct format. If you use Gen-AI, you should include a statement that declares that you have used Gen-AI and how you have used Gen-AI.
- You should not use Gen-AI in the creation or critical analysis of the content or to write or rewrite any part of your assessment.
- You should be aware that Gen-AI output can be incorrect and can include fictitious references and sources.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
