## Previous Student Feedback

### Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

#### Feedback from Student evaluation

##### Feedback

Students found the unit resources and Moodle site easy to navigate and the unit content and assessments engaging. Students commented that the level of assessment feedback improved their understanding and application of key concepts and results in remaining assessments.

##### Recommendation

The unit Moodle site structure and assessment formats will be retained and resources updated accordingly.

#### Feedback from Student evaluation and Unit Coordinator's observations.

##### Feedback

While students indicated they enjoyed the zoom sessions, there was not a strong student attendance throughout the term. The highest student attendance was at the Assessment Q & A zoom sessions. Learning activities were designed for weekly zoom sessions to improve understanding and application of the weekly study content. The unit coordinator varied weekly zoom times to accommodate students' differing availability. This attempt to accommodate student needs may have influenced a student indicating some confusion about the times of the sessions.

##### Recommendation

A list of weekly zoom sessions will be provided at the commencement of the term.

## Assessment Tasks

### 1 Assessment - Group Discussion

#### Assessment Type

Group Discussion

#### Task Description

You are required to participate in **two online group discussion topics** due in **Week 2 and Week 5**; see the Moodle unit site for due dates for each group discussion topic. The group discussion tasks are intended to replicate a face-to-face tutorial to develop student knowledge of ethical practice and skills essential for social work practice. The activities will strengthen your capacity to participate in an informative discussion for ethical decision-making and provide constructive feedback to peers. These activities are to be viewed as learning opportunities rather than peer evaluation.

#### Instructions

For **each** group discussion topic you are required to:

1. Post a 500-word written online response to a group discussion topic
2. Make a considered response to another student's submission
3. Post a 300-word short reflection.

**Important note:** The two group discussion topics will be assessed (15% each). The group discussion topic, which includes a case study and questions, and a detailed schedule of due dates for each topic are located under *Assessment 1* on the unit Moodle site. You will be allocated to a small group for each discussion topic.

Your responses should:

- Identify and analyse ethical content inherent to the case study and refer to the relevant unit and independent literature.
- Identify and demonstrate knowledge of the relevant core ethical principles of social work practice referring to the AASW Code of Ethics (2020).
- Demonstrate an ability to interact and discuss important issues relating to ethics in a human service context.
- Utilise reflective practice for the consideration of other perspectives, identification of the values, beliefs and assumptions influencing ethical decision making, and the articulation of insights gained for future practice.

To pass this assessment you are required to post a response to the topic, respond to another student's discussion post, and provide a short reflection on **both** group discussion topics.

#### Literature and references

In this assessment, you are expected to have completed the core readings before participating in the group discussion and your discussion should refer to the core readings and be properly cited/referenced (APA). Additionally, you are encouraged to undertake independent reading on the topic.

Suitable references include peer-reviewed journal articles as well as textbooks and credible websites. When sourcing information, consider the 5 elements of a quality reference: currency, authority, relevance, objectivity, and coverage. Grey literature sourced from the internet must be from reputable websites such as from government, university, or peak national bodies: for example, the Australian Association of Social Workers. You are expected to have completed the core readings before participating in the group discussion and your discussion should make reference to the core readings and be properly cited/referenced (APA). Additionally, you are encouraged to undertake independent reading on the topic.

#### Requirements

- It is recommended students complete their responses in a saved Microsoft Word document and cut and paste from the document into the respective group forum; this will avoid any loss of work due to internet outages or timeout of Moodle session.
- Your initial 500-word response to the group discussion should be written in the third-person perspective.
- Write in the first-person perspective in your response to another student and your short reflection response.
- Use the APA 7th referencing style.
- The word count is considered from the first word of the post to the last word of the post. The word count excludes the reference list but includes in-text references and direct quotations.

- **Please note:** You are expected to adhere to acceptable netiquette protocols in all your communications on the Moodle site.

### Word limit for each group discussion topic

- A 500-word limit for the online response to the group discussion topic.
- No word limit for online response to a student.
- A 300-word limit for the online reflective practice post.

You must remain within 10% of the word limit. The word count is considered from the first word to the last word of the student post. It excludes the reference list. It includes in-text references and direct quotations.

Penalties will apply for late submissions as per CQUniversity's late submission procedure.

### Assessment Due Date

Ongoing. Group discussion topics are due for weeks 2 & 5 of term. A detailed schedule of dates, discussion topics and requirements for each topic will be provided on Moodle.

## 3 Written Assessment

### Assessment Type

Written Assessment

### Task Description

This assessment requires you to analyse an ethical dilemma in social work practice. You will explore the complex ethical dilemmas that emerge when political, social and economic context impacts service user populations and social work practice. Therefore, ethical problem solving is an essential professional requirement for social work practice.

### Instructions

Produce a written essay that addresses the ethical dilemma (Vignette) outlined on Moodle under *Assessment 3 - Written Assessment*.

Your discussion needs to address the following:

- For each of the following courses of action listed below, provide an ethical rationale for selecting **and** rejecting the action in Mr Cowan's case.
- Refer to appropriate literature and the AASW Code of Ethics to identify and examine the relevant ethical principles, values and responsibilities that apply to the scenario and courses of action.
- Based on the options below **or** a different course of action you have considered, what course of action would you favour? (Be sure to explain and provide an ethical justification, reflection and evaluation for your decision).
- Explain the cultural considerations you would make in your decision-making process **for each course of action** if Mr Cowan identified as an Australian Aboriginal person.
- You are required to refer to the literature relevant to this assignment's topic.

The proposed courses of action include:

1. The social worker decides to respect the principles of confidentiality and self-determination and do nothing.
2. The social worker assesses for involuntary placement due to Mr Cowan's impaired judgment about his current life circumstances.
3. The social worker decides that the least restrictive route is to contact Mr Cowan's brother to check on Mr Cowan over the weekend.
4. The social worker explains to Mr Cowan that they are not convinced he can attend to his needs and presents him with the options based on their assessment.

## **Academic Integrity Statement**

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

### **What is a breach of academic integrity?**

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

### **Why is academic integrity important?**

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

### **Where can I get assistance?**

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

### **What can you do to act with integrity?**

**Be Honest**

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

**Seek Help**

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

**Produce Original Work**

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
