General Information

Overview

In this unit you will learn how to apply the models and principles of Multi-Modal Communication for people who cannot rely on speech alone to be heard and understood across the lifespan. You will also learn about Augmentative and Alternative Communication Systems including oral, manual and assistive technologies. You will be required to analyse and evaluate assessment approaches to create therapy techniques and management strategies for children and adults. Theoretical frameworks including the Participation Model, principles of evidence-based practice and interprofessional practice will be integrated throughout the unit.
