

SPCH13010 Swallowing and Feeding Across the Lifespan

Term 1 - 2024

Profile information current as at 29/07/2024 03:27 pm

All details in this unit profile for SPCH13010 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

In this unit, you will learn about the development of feeding and the progression of swallowing across the lifespan. You will advance your competency in the assessment, analysis, planning and treatment of swallowing and feeding difficulties across the lifespan. You will consider the aetiology, diagnosis and management of swallowing and feeding in the context of the International Classification of Functioning, Disability and Health (ICF) framework. Evidence based practice will provide the foundation for your learning in all stages of diagnosis and management.

Details

Career Level: *Undergraduate*

Unit Level: *Level 3*

Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

Pre-Requisites ALLH12006 Evidence Based Practice for Health Professionals SPCH12003 Functional Anatomy of the Head, Neck, and Thorax SPCH12007 Speech Pathology Work Integrated Learning 1 SPCH13004 Language, Literacy, and Hearing in School-Aged Children

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 1 - 2024

- Rockhampton

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Class Timetable

Assessment Overview

1. **Online Quiz(zes)**

Weighting: 20%

2. **Case Study**

Weighting: 40%

3. **Objective Structured Clinical Examinations (OSCEs)**

Weighting: 40%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Unit evaluation data and unit coordinator reflection.

Feedback

The assessment task description should continue to contain clear specific instructions to enhance students' understanding of task expectations.

Recommendation

It is recommended that the unit coordinator provides a task description with clear instructions and behavioural expectations, and offers a Q&A session prior to each assessment.

Feedback from Student feedback via SUTE teacher reports

Feedback

The unit coordinator should source high quality video material to share with students in the teaching time.

Recommendation

It is recommended that in 2024 appropriate, high-quality video materials, that enhance student understanding of the content, are utilised.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Describe the mechanism of a safe swallow and its variation across the lifespan
2. Analyse swallowing and feeding behaviour using both formal and informal assessment techniques, and make appropriate recommendations for the management and rehabilitation of swallowing and feeding difficulties
3. Adapt communication to provide information and counselling to clients and others about swallowing and feeding difficulties and implications for safety, nutrition, and hydration
4. Demonstrate ethical practice while making independent holistic decisions

Alignment of Learning Outcomes, Assessment and Graduate Attributes

Schedule

Week 1 - 04 Mar 2024

Module/Topic	Chapter	Events and Submissions/Topic
Overview of Swallowing and Feeding across the Lifespan	Readings will be posted in Moodle.	

Week 2 - 11 Mar 2024

Module/Topic	Chapter	Events and Submissions/Topic
Bolus Modifications and Tube Feeding	Readings will be posted in Moodle.	

Week 3 - 18 Mar 2024

Module/Topic	Chapter	Events and Submissions/Topic
Adult Screening and Clinical Assessment	Readings will be posted in Moodle.	

Week 4 - 25 Mar 2024

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Paediatric Screening and Clinical Assessment Readings will be posted in Moodle.

Week 5 - 01 Apr 2024

Module/Topic	Chapter	Events and Submissions/Topic
Instrumental Assessment	Readings will be posted in Moodle.	Online Quiz Due: Week 5 Friday (5 Apr 2024) 6:00 pm AEST

Vacation Week - 08 Apr 2024

Module/Topic	Chapter	Events and Submissions/Topic
No classes or assessments this week.		

Week 6 - 15 Apr 2024

Module/Topic	Chapter	Events and Submissions/Topic
Postural and Compensatory Interventions	Readings will be posted in Moodle.	

Week 7 - 22 Apr 2024

Module/Topic	Chapter	Events and Submissions/Topic
(Re)habilitative Interventions	Readings will be posted in Moodle.	

Week 8 - 29 Apr 2024

Module/Topic	Chapter	Events and Submissions/Topic
Environmental Supports	Readings will be posted in Moodle.	

Week 9 - 06 May 2024

Module/Topic	Chapter	Events and Submissions/Topic
Ethics, Counselling, and Cultural Considerations	Readings will be posted in Moodle.	Case Study Due: Week 9 Friday (10 May 2024) 6:00 pm AEST

Week 10 - 13 May 2024

Module/Topic	Chapter	Events and Submissions/Topic
Specific Populations - Paediatric	Readings will be posted in Moodle.	

Week 11 - 20 May 2024

Module/Topic	Chapter	Events and Submissions/Topic
Specific Populations - Adult	Readings will be posted in Moodle.	

Week 12 - 27 May 2024

Module/Topic	Chapter	Events and Submissions/Topic
Tracheostomy	Readings will be posted in Moodle.	

Review/Exam Week - 03 Jun 2024

Module/Topic	Chapter	Events and Submissions/Topic
		OSCE Due: Review/Exam Week Wednesday (5 June 2024) 9:00 am AEST

Exam Week - 10 Jun 2024

Module/Topic	Chapter	Events and Submissions/Topic
No classes or assessments this week.		

Term Specific Information

The unit content will be delivered via online lectures and activities and on campus face-to-face tutorials. The classes will require significant input from the student, please ensure that you review the weekly Moodle tile prior to attending the class to ensure that you are prepared.

Assessment Cupboard Access

Students will require access to the CQU Speech Pathology assessment cupboard to prepare for their OSCEs. Students will be provided with scheduled weekly access, the available dates and times will be outlined on Moodle.

Office Hours

If you wish to arrange a meeting with Justine Hamilton (Unit Coordinator) or Jodie Anderson (Lecturer), please contact them via email (j.l.hamilton@cqu.edu.au, j.anderson3@cqu.edu.au) and a mutually agreeable time will be arranged.

Assessment Tasks

1 Online Quiz

Assessment Type

Online Quiz(zes)

Task Description

The purpose of the online quiz is to consolidate and challenge your knowledge of content covered in the first 4 weeks of the unit. This content focuses on the nature of feeding and swallowing conditions, bolus modifications, and clinical assessment of these conditions. The online quiz will include a range of question types, such as single choice, multiple choice, matching, short answer, true/false, etc. The online quiz accounts for 20% of the overall unit mark. This is a must-pass assessment task.

Number of Quizzes

1

Frequency of Quizzes

Other

Assessment Due Date

Week 5 Friday (5 Apr 2024) 6:00 pm AEST

The quiz will open at 8am on Thursday 4th of April and close at 6pm on Friday 5th of April. Once you start the quiz, you will have one hour to complete it.

Return Date to Students

Week 6 Friday (19 Apr 2024)

Results will be released in Moodle by Friday 19th April at 5pm.

Weighting

20%

Minimum mark or grade

This is a must pass assessment task. Students must receive a minimum grade of 50% to pass.

Assessment Criteria

Quiz questions will include closed-type questions (e.g., multiple choice, matching) and short answer questions. Points assigned are identified for each question. You will attain points for questions answered correctly.

Referencing Style

- [American Psychological Association 7th Edition \(APA 7th edition\)](#)

Submission

Online

Submission Instructions

The quiz will open at 8am on Thursday 4th of April and close at 6pm on Friday 5th of April. Once you start the quiz, you will have one hour to complete it.

Learning Outcomes Assessed

- Describe the mechanism of a safe swallow and its variation across the lifespan

2 Case Study

Assessment Type

Case Study

Task Description

This written assessment task is based on a case study of a child with swallowing and feeding needs. The profile will include a case history, assessment results, and other pertinent clinical and personal information. As a speech pathologist working in a community private practice setting, you will need to review all of the information, analyse the assessment results, and complete the following three parts. Please note that the case study child you have been allocated will be provided on Moodle under the Assessment Tile.

Part A

- Write two long-term goals and four short-term goals using the SMART goal format. All goals must address the pertinent aspects of the case information and assessment results, demonstrating a clear understanding of child and family needs, and consideration of the child's swallowing and feeding needs that impact on safety, nutrition, and hydration.

Part B

- Choose two short-term goals from Part A and justify why your goals are appropriate for your allocated case study. Your justification should reference the case information, the assessment results, and evidence-based practice.

Part C

- Addressing the two short-term goals that you did not choose in Part B, create one parent handout per short-term goal (two parent handouts in total). The purpose of each handout is to provide an informative resource to the parent/caregiver to support their child in achieving the identified short-term goal. The handouts should clearly outline the intervention procedure (i.e., positioning, environment, equipment, diet modification, exercises, parent education) that the parent/caregiver will utilise in the home environment. The handouts must use parent-friendly language and images and must be tailored to the specific needs of the case child, whilst also reflecting evidence-based practice.

Assessment Due Date

Week 9 Friday (10 May 2024) 6:00 pm AEST

This assessment task must be uploaded to Moodle by the due date/time.

Return Date to Students

Week 11 Friday (24 May 2024)

Feedback will be uploaded to Moodle.

Weighting

40%

Minimum mark or grade

This is a must pass assessment task. Students must receive a minimum grade of 50% to pass.

Assessment Criteria

1. The first criterion focuses on your analysis and interpretation of case information to inform the development of appropriate and effective goals that align with evidence-based practice and client needs. This criterion is worth 20% of the case study grade.
2. The second criterion focuses on your clinical reasoning and justification of your chosen short-term goals, which connect the identified needs in the case information, assessment results, evidence-based practice, ethical considerations, and a holistic view of child and family needs. This criterion is worth 30% of the case study grade.
3. The third criterion focuses on your development of informative therapy resources that directly contribute to the achievement of the corresponding short-term goal, integrate evidence-based practice, and are customised to the family's needs. This criterion is worth 35% of the case study grade.
4. The fourth criterion focuses on the quality of your writing including your use of appropriate writing style and conventions and use of APA-7 referencing. This criterion is worth 15% of the case study grade.

Referencing Style

- [American Psychological Association 7th Edition \(APA 7th edition\)](#)

Submission

Online

Submission Instructions

Assessment must be uploaded to Moodle by the due date/time.

Learning Outcomes Assessed

- Analyse swallowing and feeding behaviour using both formal and informal assessment techniques, and make appropriate recommendations for the management and rehabilitation of swallowing and feeding difficulties
- Adapt communication to provide information and counselling to clients and others about swallowing and feeding difficulties and implications for safety, nutrition, and hydration
- Demonstrate ethical practice while making independent holistic decisions

3 OSCE

Assessment Type

Objective Structured Clinical Examinations (OSCEs)

Task Description

For this assessment task, you will be required to complete an objective structured clinical examination (OSCE) based on a clinical scenario of an adult with swallowing needs. This assessment task requires you to complete the OSCE in the role of a clinician. This OSCE includes preparatory time followed by 2 stations. Station 1 will include working with a simulated adult with swallowing needs. Each station of your OSCE is timed. A brief outline is provided below with additional details provided on Moodle.

The case information will be released in Moodle 24 hours prior to your OSCE start time. The case will provide assessment results and other clinical and personal information for an adult with swallowing needs. Prior to the start of the OSCE, you must analyse the provided information, and use clinical reasoning to:

- Choose 1 evidence-based rehabilitative intervention to help improve the strength/coordination/speed of the individual's swallowing function,
- Choose 1 evidence-based compensatory intervention to help improve the safety and/or efficiency of the individual's current swallowing function,
- Choose 1 alteration to food texture or liquid viscosity to help improve the safety and/or efficiency of the individual's current swallowing function, and
- Create and print out a clinical record template that is maximum 2 pages long, which you will use in Station 1 to document by hand all procedures implemented and all outcomes achieved by the simulated individual.

STATION 1

Station 1 of the OSCE will be completed on campus at an assigned time that will be provided to you on Moodle two weeks prior. You should aim to arrive at least 15 minutes prior to the official assessment commencement time. In the extraordinary circumstance you are late, you will be permitted late entry to your assessment of up to 5 minutes after the official commencement time. The period of lateness will be deducted from your overall assessment time. If you are denied access to the assessment due to lateness (i.e., arriving beyond the permitted late entry period), you should make an online application for deferred assessment (which may or may not be granted in line with CQU policy). If your application for deferred assessment is denied, you will receive a score of zero percent (0%) for this assessment task but may be eligible for a supplementary assessment in line with CQU policy.

In Station 1, you will meet with a simulated adult with swallowing needs and will be required to:

- Effectively explain and demonstrate your chosen rehabilitative intervention,
- Effectively explain and demonstrate your chosen compensatory intervention,
- Effectively explain the rationale for the food texture or liquid viscosity modification* and clearly and accurately address any questions or concerns raised by the individual, and
- Document the individual's performance on the clinical record form you developed and printed. You do not need to complete all session documentation in Station 1 as you will have additional time in Station 2 for this purpose. However, you will find it helpful to at least partially document the individual's performance as it happens in Station 1.

* You are not required to demonstrate or explain methods to alter diet textures (e.g., how to thicken liquids, how to test IDDSI levels). You are only required to explain the rationale for changing the texture/viscosity.

You will have 20 minutes to complete Station 1, including time to address the individual's questions/concerns – be sure to allocate time to respond to questions and concerns when you are planning prior to the OSCE. You do not need to use the full 20 minutes if you have effectively demonstrated all requirements in less time. You will be alerted when there are 5 minutes remaining. Station 1 will be stopped at the 20-minute mark, whether or not you have completed your teaching. You will only be marked on performance demonstrated up until the 20-minute mark.

STATION 2

Station 2 of the OSCE will be completed immediately after Station 1. You will be required to:

- Use the clinical record form you developed to finish accurately and concisely documenting the procedures implemented and the outcomes achieved.

Station 2 will provide you with 5 minutes to finish filling in your clinical record form. You do not need to use the full 5 minutes if you have effectively documented all procedures and outcomes in less time. Station 2 of the OSCE will be stopped at the 5-minute mark, whether or not you have completed filling in your form.

The only items you may bring into the OSCE room are:

- Any tools/materials/handouts required to support your demonstration and/or explanations (NOTE: If you require an item from the storage room, you must book it in advance by contacting the Unit Coordinator),
- The printed clinical record template you created (on which you will document the procedures and outcomes of the session), and
- A pen or pencil to document on the clinical record template.

The completed clinical record form and any handouts utilised during the OSCE must be handed in at the end of Station 2 of the OSCE. These form part of the marking criteria for this assessment.

Assessment Due Date

Review/Exam Week Wednesday (5 June 2024) 9:00 am AEST

OSCE schedule will be posted on Moodle under the Assessment Tile, two weeks before the OSCE.

Return Date to Students

Exam Week Friday (14 June 2024)

Feedback will be uploaded to Moodle.

Weighting

40%

Minimum mark or grade

This is a must pass assessment task. Students must receive a minimum grade of 50% to pass.

Assessment Criteria

There are 4 marking criteria that will be used to assess Assessment 3 for SPCH13010:

1. The first criterion focuses on how well your choices of rehabilitative and compensatory interventions and food/fluid modification are supported in the evidence and how well they map to the individual's needs. This criterion is worth 25% of the OSCE grade.
2. The second criterion focuses on the accuracy of the rehabilitation and intervention procedures you teach and the person-centredness of your explanations/instructions/demonstrations. This criterion is worth 30% of the OSCE grade.
3. The third criterion focuses on the person-centredness of your explanation of the food/drink modification recommendation and how accurately and ethically you respond to the individual's questions/concerns. This criterion is 30% of the OSCE grade.
4. The fourth criterion focuses on the clarity and organization of the headings/sections in your clinical record template and the accuracy of the procedures and outcomes you documented within the template. This criterion is worth 15% of the OSCE grade.

Referencing Style

- [American Psychological Association 7th Edition \(APA 7th edition\)](#)

Submission

Offline

Submission Instructions

Handouts and clinical record form must be handed in upon completion of Station 3 of the OSCE.

Learning Outcomes Assessed

- Describe the mechanism of a safe swallow and its variation across the lifespan
- Analyse swallowing and feeding behaviour using both formal and informal assessment techniques, and make appropriate recommendations for the management and rehabilitation of swallowing and feeding difficulties
- Adapt communication to provide information and counselling to clients and others about swallowing and feeding difficulties and implications for safety, nutrition, and hydration
- Demonstrate ethical practice while making independent holistic decisions

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
